RACKMOUNT PDU
WITH RACKLINK™

Value oriented, intelligent outlet offering that is as versatile as your system and universally controlled.

FEATURES

- **RackLink is international.** CE Rated with IEC outlets. Get the RackLink you know and trust for your international deployments.

- **Oh Snap! It's Compact!** The compact design of the four outlet PDU is perfect for "behind-the-display" applications, especially digital signage.

- **The control you need to maintain the uptime of your equipment.** After you go through the easy set-up of the RackLink™ user interface, you'll have individual IP outlet control for up to 8 outlets on the full rackmount model.

- **Manage the start-up or shut down of your equipment.** RackLink™ enables remote sequencing with user selectable delays for an optimal start-up or shut down progression.

- **Fast and easy commissioning.** Using the RackLink™ Discovery app on iPhone or Android, quickly connect your RackLink™ enabled PDUs and monitor your system, anywhere, anytime.

- **Automate it and forget about it.** Improve your system reliability by automating actions such as multiple IP AutoPing and recovery.

- **Always be informed.** Receive automatic notifications of connection status.

- **Do you prefer to use a third party software?** Seamlessly interfaces with 3rd party AV control systems and cloud platforms for scheduling, control, reporting and even customization.
