

Carrier 10 Charging Station™

Charge, store and secure up to 10 devices.

-  **Large Baskets by LocknCharge** make device deployments faster and safer, so that Teachers and IT Administrators can focus on creating an engaging learning environment.
-  **Compatible.**¹ Includes two Large Baskets by LocknCharge and a Stainless Steel Device Rack for storing any device.
-  **Secure.** Keep your valuable device investments safe. The combination of welded steel construction, the mounting-kit and a hardened steel padlock, protects your devices while they're not in use.
-  **Efficient charging.** The Carrier 10 Charging Station can charge any 10 devices simultaneously, including Chromebooks, Laptops, Macbooks and most Tablets, with or without most cases.
-  **Wall or desk mounting.** Transform any wall, desk or bench into a secure space for charging mobile devices. The Carrier 10 Charging Station is designed to be flexible and adapt to your surroundings.³
-  **Lifetime warranty.** Schools can be tough on Charging Stations. LocknCharge products are built to last.²

It just makes life easier.

Designed to go where other Charging Stations can't. Baskets by LocknCharge allow you to share and safely distribute the devices that are stored in the Carrier 10 Charging Station, between multiple classrooms. They also enable students to assist in the distribution of devices, so teaching can happen faster. The Baskets are interchangeable with LocknCharge Carts that use the same large Basket ecosystem, such as the Carrier 20 Cart™.

New larger Baskets by LocknCharge. The Carrier 10 Charging Station is equipped with larger Baskets, allowing it to fit bigger devices. Now you can store and safely distribute 13" Chromebooks, Macbooks, Tablets or iPad devices.¹

Are your devices still too big for the Baskets? The Carrier 10 Charging Station also includes a Stainless Steel Device Rack. The Rack is designed to accommodate larger Laptops.

Easy cable management. LocknCharge cable management has been simplified so that you can wire an entire Charging Station in minutes. Save time with set up and gain time using your Carrier 10 Charging Station.

Secure charging. The externally accessible power outlet means that you can charge your devices while they're safely locked in the Charging Station. Additionally, the device power packs are securely stored away beneath the curved steel sliding lid and can only be accessed when the Carrier 10 Charging Station is open.

Modular syncing (optional). Don't buy a new Sync and Charge Station, purchase the hand held iQ 16 Sync Charge Box™ which allows you to carry the unit to where syncing is required (sold separately). Contact us for more details.
