

# Epson ELPWP10 - Wireless Presentation System

Intuitive, low-cost wireless presentation system that improves collaboration by displaying content from up to 4 devices on a large display.

From huddle spaces to agile meeting rooms the need for fast wireless collaboration has become a part of everyday working life. And now, thanks to Epson's ELPWP10 wireless presentation system, users can simply turn up, plug in, start sharing content wirelessly to select Epson laser display solutions.

With the ELPWP10, wireless content sharing from any device to select Epson laser displays is made easy in three simple steps - plug, click and share.

Deliver enriched meetings and sessions with this intuitive solution that helps you enhance communication, increase productivity and save time. Launch and share content from any program on your laptop, whether it's an Excel spreadsheet, presentation, e-mail, image or video - the ELPWP10 makes your content sharing easy and impactful.

It's all simple - plug the wireless transmitter into the laptop and click on the built-in app to begin transmitting content to the display. Users of mobile devices can also connect using the Miracast protocol or Epson's free iProjection app.

Up to 4 devices can be displayed simultaneously, enhancing collaboration by sharing content from multiple devices on one big display.

The transmitter connects instantly to a receiver that integrates with the Epson display, rather than requiring a wall or desk-based receiver. This flexibility allows delivery of impactful, easily viewed presentations on large screens far more easily than previously possible.

As there is no physical button on the transmitters they can be sanitised after use, for full hygiene protection.

## KEY FEATURES

- **Accelerate collaboration**  
A wireless presentation system for maximum ease of use
- **Four-screen sharing**  
Display up to four devices simultaneously
- **Always-on security**  
Prevent unauthorised data access with AES encryption
- **Compatibility with major OSs**  
Works with Windows, Android, iOS and Chromebook
- **Easy integration**  
Connects to select Epson display solutions

## PRODUCT SPECIFICATIONS

### RECEIVER

Inputs	Miracast (display dependent), iProjection
Compatible with Epson Document Cameras	Yes
Frame Rate	max. 18 fps
Number of sources simultaneously displayed	1 to 4
Max. number of sources simultaneously connected (including transmitters)	6
Number of transmitters supplied	2
Screen sharing (Miracast R2)	Display dependent
Screen sharing (Apple AirPlay)	No
Screen sharing (Google Cast)	No
Auto power on display	Yes (CEC)
Video output	HDMI (HDCP2.3, CEC, 1080p)
Transmitter Cradle included	Yes(capacity: 6)
Warranty (receiver only)	3 years

### TRANSMITTERS

Max. supported resolution	WUXGA (1920x1200)
Compatible Operating Systems	Windows 8.1 or higher, MacOS 10.13-11.0
Source device ports	USB-A, USB-C
Transmitter application - source	App built in to transmitter
Connection type - transmitter	Peer to peer WiFi
Maximum range	10 m
Wireless transmission protocols	WiFi 5 (802.11a/b/g/n/ac)
User-selectable WiFi channel	Yes
User selectable transmitter bandwidth options	High quality (25Mbps), Standard quality (15Mbps), Low quality (7Mbps)
Pairing methods	Via PC using Configuration Tool or connecting transmitter to receiver
Easy to disinfect	Yes
Epson Wireless Presentation app (Windows & Mac)	Built into the transmitters
Warranty (transmitters)	3 years

### SECURITY

Authentication Infrastructure	Simple AP: WPA2-Personal
Transmission encryption	WPA2/WPA3-Personal, WPA2/WPA3-Enterprise
Transmitter application - requirements - Installation	RSA AES-128-bit with new public key each session
Transmitter application - requirements - Administrator privileges	No (app runs directly from transmitter)
Transmitter security	No
Transmitter security	Transmitter storage is read only

### IProjection

Connection type	Either via infrastructure network or simple connection (direct WiFi)
Source device (iProjection)	Windows, MacOS, iOS, Android, Chromebook
Operating Systems	
Moderator function compatible	Yes

### SOFTWARE

iProjection	Download from Epson website (Windows / Mac) or the relevant app store (iOS, Android & Chromebook)
Epson Wireless Presentation app (Windows & Mac)	Built into the transmitters

### OPTIONS

Options	ELPWT01 - Wireless Transmitter
