

In-Wall Speaker Cables

SCP In-Wall Speaker Cables are well known for having the best performance quality and value in the Custom Installation industry. This is why distributors of leading speaker brands, such as Sonance* and Current Audio recommend SCP Speaker Cables to be paired with their residential and commercial systems.

SCP In-Wall Speaker Cable features:

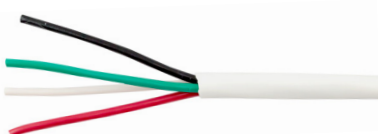

- CL3R and FT4 In-Wall rated for residential and commercial
- High strand count for premium performance with less resistance
- Oxygen Free Copper for superior conductivity
- Balanced Twisted Pair construction
- Coated jacket for easy pull even through conduit
- Sequential foot markings with room/outlet designations
